1 NAVIGATION STYLE

PREMIUM

3 NAVIGATION STYLES

AxCMS.net

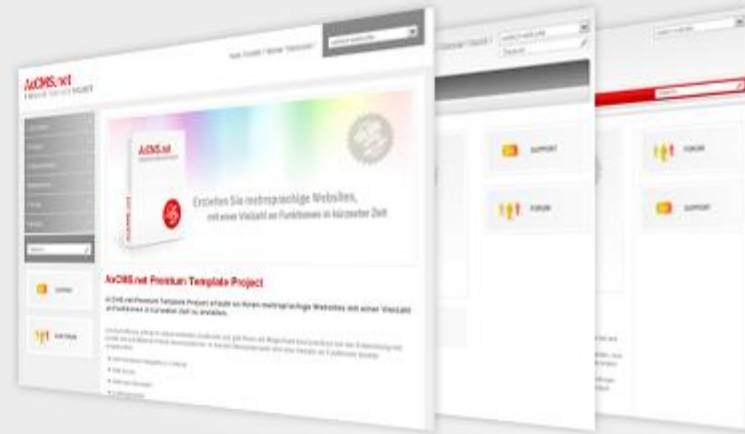

MULTISITE

PREMIUM

STANDARD

Manage multiple sites on a single instance or on multiple instances of AxCMS.net on the same server!
There are no limitations for the number of sites or languages.

Create all pages (for all sites) in the same instance of AxCMS.net and structure them using your navigation tree! You can use different templates, structure elements or content.

MULTILANGUAGE

PREMIUM

STANDARD

Let the visitors of your multilingual site switch from one language version to another! With the language switch, you directly connect the appropriate content-pages with the various language versions.

TWO-PHASE REGISTRATION

PREMIUM

STANDARD

Provide a registration form to your users that they can send to you when registering! An e-mail will be sent out automatically to the e-mail address they specified. For completing registration they have to click the link in this e-mail to verify their address.

FLEXIBLE TABLES

PREMIUM

STANDARD

AxCMS.net allows you to create and edit custom tables without HTML knowledge and to fill them with images, texts, forms, surveys, banners etc. All data entered into the tables are saved neutrally so they can be used for further purposes at any time.

STRUCTURE ELEMENTS

PREMIUM

STANDARD

Key visuals for structure elements show you in a very simple way how to set up your page structure and how to include special content elements such as contact forms, voting modules, dynamic lists, e-commerce elements etc.

STANDARD

PREMIUM

CONTACT MODULE

With this module you put feedback forms on your pages to allow users to contact you. Choose from many different dynamic elements what your contact forms contain: Dropdown menus, buttons, captcha, text boxes, radio button lists, and more.

NEWSBOX

PREMIUM

STANDARD

Use this small structure element in narrow placeholders for directly linking to pages, videos, documents like you were using a complete dynamic teaser list!

RECOMMEND PAGE

PREMIUM

STANDARD

Easily allow users to recommend your pages: Only one click opens a popup window in which they can write messages and send them out by e-mail to any other user on the internet.

BANNER

PREMIUM

STANDARD

With the banner campaign you can show alternating banners on your site. They are analyzed by the banner statistic according to general criteria such as page impressions or clicks. You can define various campaigns for the different units of your presentation and control the presentation of banners by assigning categories.

LIST CONTROLS I

PREMIUM

STANDARD

With the list controls, you display press releases, product items, or customer references in dynamic and configurable lists with images, item limits or the following features:

WITH PAGER

The extension of lists by a pager allows displaying any amount of entries. The users can navigate the list-pages via links.

WITH THUMBNAILS

Extension of lists with images: lodge contents / pages manually or automated in original size or scaled via relations!

FOR PAGES AND DOCUMENTS

Display both pages and documents in one list at the same time - without caring about the fact that they are different kinds of objects!

LIST CONTROLS II

PREMIUM

STANDARD

Beside these common list enhancements there are some more of them available in Premium Template Project only:

FIXED LIST POSITIONS

Define certain list items that don't change their position, even if the newest added items always appear on top of the list and scroll down older ones!

RSS

You can give your users the chance to subscribe to your content!

SELECTION OF MORE THAN ONE CATEGORY / CUT OR UNION

Combine list items assigned to different categories in one single list! You can choose if an intersection or a union of them is displayed.

AxCMS.net 9 Premium Template Vs. Standard

MAIL TEMPLATE

PREMIUM

STANDARD

Mail Template is a special kind of page which can be used for creating individual personalized e-mail messages from custom code.

NEWSLETTER

PREMIUM

STANDARD

Newsletter is a special kind of page which, when published to LS, can be sent out via e-mail as a personalized message to LS users categorized in the same categories as the newsletter. Sending out needs the AxCMS.net MailCenter in the Newsletter Template Project.

FORUM

PREMIUM

STANDARD

Let your visitors create a community with a forum! They can exchange information with each other or receive inexpensive technical support.

IMPORT & EXPORT

PREMIUM

STANDARD

Use many enhancements delivered now for importing and exporting content into and out of AxCMS.net without losing relations, property settings or categories. Leave certain attributes out while dealing with objects from pages, newsletters and mail templates!

PUBLISH PLUGIN

PREMIUM

STANDARD

Every change in pages, documents or in navigation must be published before it can be seen in LS. With this extension you can automatically publish more than one change in more than one independent objects (e.g. a page and a document) at one time.

CUSTOM OBJECTS

PREMIUM

STANDARD

You can create your own objects, if you need special ones. They will behave the same way as if they were CMS objects.

PAGE/DOCUMENT EXTENSIONS

PREMIUM

STANDARD

Get example code on how to add additional properties to pages and documents! This includes creating new fields on page and document details also.

LIVESYSTEM USER EXTENSIONS

PREMIUM

STANDARD

Even users of your live system can now be extended by you. Use an example of how to extend user object of AxCMS.net!

RICH TEXT EDITOR CONTROL

PREMIUM

STANDARD

Get this example for using of the Rich Text Editor control. Learn how to use this control in the editor of your dynamic controls!

VIDEO PLAYERS

In Premium Template You can simply integrate Silverlight or Windows Media Player into your website. Also free add-ons, for example to embed YouTube videos, are available.

PREMIUM

STANDARD

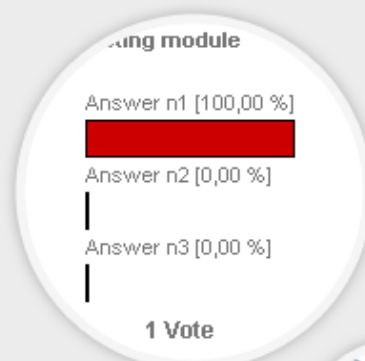

VOTING MODULE

PREMIUM

STANDARD

Voting Module allows you to create and add different polls to your AxCMS.net - based website.

To use Voting Module, it is needed that you add a Voting control to a placeholder of the page you want to have a voting poll.

PROTECTED AREAS

PREMIUM

STANDARD

Make parts of your website only accessible to users with appropriate rights and protect the content in those areas with a required login!

PROTECTED DOCUMENTS

PREMIUM

STANDARD

Make documents behave like protected areas: Only being assigned to protected categories users will be able to log in to proceed if they need to access them.

CUSTOMISATION

PREMIUM

STANDARD

It is now possible to customize detail pages by using extendable object properties, rename columns in overview lists, add your own additional columns, set your own custom filters, and more...
